<b>Office Action Summary</b>	<b>Application No.</b> 10/568,631	<b>Applicant(s)</b> BUCHTA, CHRISTOPH	
	<b>Examiner</b> Jerry Redman	<b>Art Unit</b> 3634	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The status of the claims is as follows:

Claim 5 has been cancelled; and

Claims 1-4 are herein addressed below.

The applicant's information disclosure statement dated 2/16/2006 has been considered and a copy has been placed in the file.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, lines 13-14, the following phraseology is not readily understood by the Examiner: "in which it does not engage the slider, to a second position, in which it engages the slider with the first screw end". Does the applicant mean the screw end when referring to "it"? What engages in the first position and in the second position? Are not all bolts and screws have two positions? An engaged and unengaged position? In claim 3, line 2, it appears that —the—should be inserted after "of". In claim 4, lines 1-4, the applicant recites "a hole". Are these different holes than previously cited? Consistency should be maintained by reciting a first hole, a second hole, a third hole, etc.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3634

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

As best understood, claims 1-2 are further rejected under 35 U.S.C. 102(b) as being anticipated by Lisak et al. (4,956,942). As shown in detail below, by Lisak et al. (4,956,942) disclose an adjusting comprising a profiled base element (25) positionable on a lower section of a vehicle door (10) and provided with a first elongate hole and second elongate hole (see figure below), a slider (46) slidably moveable within the profiled base element (25) and provided with a hole, a screw (52) having a head portion (see figure below), and a threaded bolt (54) extending within the holes.

Depending on the applicant's amendments, claims 3-4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. patents to Klueger et al. and Heintz; and Patent application publication to Cardine et al discloses adjustment devices similar to that of the applicant's invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerry Redman whose telephone number is 571-272-6835. The examiner can normally be reached on M-F from 8 to 6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Glessner, can be reached on 571-272-6843. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
